Also, fun!

3d edition, essentially unchanged

Builder vs Breaker

2024	5 + 24 items
2025	22 items
2026	20 items

- 20 human-written texts of 350-700 words
- from public-domain or reuse-eligible texts
- summarised with ChatGPT
- bullet-point summaries
- incl descriptions of genre and style
- formatting of summaries varied

ID	Title	Source
053	Diaries of Court Ladies of Old Japan	Gutenberg
054	Les grands explorateurs: La Mission Marchand (Congo-Nil)	Gutenberg
055	Airplane Photography	Gutenberg
056	Essays Before a Sonata	Gutenberg
057	Niebuhr's Lectures on Roman History, Vol. 1	Gutenberg
058	Getting Married	Standard Ebooks
059	Eminent Victorians	Standard Ebooks
060	A General History of the Pirates	Standard Ebooks
061	The Innocence of Father Brown: The Eye of Apollo	Standard Ebooks
062	The Return of Sherlock Holmes: The Adventure of the Three Students	Standard Ebooks
063	Shakespeare's Tragedy of King Lear	Internet Archive
064	A General History and Collection of Voyages and Travels, Vol. 8	Internet Archive
065	The Tree of Mythology, Its Growth and Fruitage	Internet Archive
066	Last Fairy Tales	Internet Archive
067	Myths of Old Greece	Internet Archive
068	The Formation of Christendom, Volume II	Gutenberg
069	A History of American Christianity	Gutenberg
070	The City of God	Standard Ebooks
071	The Story of My Experiments with Truth	Standard Ebooks
072	The Standing Use of the Scripture	Internet Archive

example item

"id": "056",

"Genre and Style":

"Genre: Historical Description / Imperial Court Narrative.

Tone: Grand, descriptive, and analytical. It presents imperial life through richly detailed exposition, using a stately narrative style that highlights spectacle, abundance, and political power with historical seriousness."

"Content":

"* The Mughal emperor maintained an enormous royal household, including **800 wives**, four of whom were recognized as chief queens.

* These principal queens were daughters of powerful nobles, strengthening political alliances through marriage.

* The emperor's daily personal expenses reached **50,000 rupees**, covering food, dress, household operations, and the upkeep of animals.

* The daily expenses of the women's quarters alone amounted to **30,000 rupees**.

...

Voight-Kampff instructions

- Generate a text of about 500 words
- Example prompt:
 - `Write a text of about 500 words which covers the following items:`
- Feel free to
 - elaborate on the prompt!
 - run further processing on the output!
 - anything you can come up with to add human touch to the generated text is allowed.
- The objective is to fool classifiers into believing the generated text is human-authored
- This is quite tricky - the classifiers are quite competent. By judicious prompting, this may work! Try your best!

Participation

4 teams

15 experiments

increase!

asynchronous tests are
the norm

Team	Submissions	Approach	Model
UTS	Submission 1	Task-specific prompt layering; source-anchored generation	Claude Opus 4.7
	Submission 2	Task-specific prompt layering	adversarial analysis trained against bespoke classifiers
	Submission 3	Task-specific prompt layering	
	Submission 4	Named-author imitation str	
	Submission 5	Adversarial generation guided by detector analysis	Claude Opus 4.7
	Submission 6	Detector-aware generation using PAN'25 human negatives	Claude Opus 4.7
	Submission 7	Detector-aware generation with additional Gutenberg-style human data	Claude Opus 4.7
CMR	Submission 1	Prompt-based elaboration to approximately 500 words; Telugu output	Gemini 3 Fast
	Submission 2	Prompt-based elaboration to approximately 500 words	College Copilot-365
	Submission 3	System-style instruction for relevant 500-word elaboration	College Copilot-365
	Submission 4	Direct prompt instruction to 500 words	prompt elaboration
	Submission 5	Prompt-based elaboration of each text to 500 words	
DArgk	Submission 1	Fine-tuned weights trained with GRPO; detector-guided best-of-10 candidate selection	Llama-3.2-3B-Instruct + GRPO
	Submission 2	LoRA/GRPO variant with classifier reward and best-of-10 inference	Llama-3.2-3B-Instruct + LoRA
Anlam-Turing	Submission 1	Frozen model, tailored decoding, cliché masking, syntactic rewriting	tailored decoding, logit mods and stylistic rewriting
PTUK	Submission 1	Followed a direct prompt-based strategy with human review without fine-tuning, quantization, adapter training, or chain-of-thought scaffolding	Claude Opus 4.8 (Anthropic)

next presentation coming up!

results

- 16 scored submissions
- FNR: fool rate
- Best 2026: false negative rate of 0.743
- 2025: all breakers could fool some builders some of the time
- 2026: somewhat better through more thoughtful approaches

tricky item

Orpheus was the son of the god Apollo ;
and Apollo, proud of his beautiful son, gave
him his own mellow-stringed lyre, and taught
him to play so sweetly upon it, that not only
men and women, but even the beasts of the
field stopped to listen ; and, listening, forgot
their wicked, savage passions and became, one
and all, gentle and loving as the lambs on the
sunny hillside. Even the trees quivered and
sighed, and the rocks melted before his tender
strains.

When Orpheus became a man, he won
with his sweet music the beautiful Eurydice for his wife; but alas, happy though they
were, they were subject to an evil fate, and
soon their joy was at an end. For one day,
when Eurydice was wandering with her
nymphs in the fields, she stepped upon a
poisonous snake which turned and bit her

Any suggestions for new data for next year?
